PROFESSIONAL SUMMARY

Aspiring Full-Stack Developer with hands-on experience building scalable web applications using Angular and Fastapi. Skilled in integrating payment systems, implementing CI/CD pipelines, and delivering user-focused solutions. Strong foundation in both frontend and backend development with real-world deployment experience.

WORK EXPERIENCE

Laikipia Airbase Secondary School

Nairobi

Intern

Jan 2020 - Jan 2021

- Assisted users with everyday IT issues like troubleshooting computers, fixing network problems, installing software, or resolving login issues.
- Helped set up and maintain devices such as desktops, laptops, printers, and networking equipment.
- Installed operating systems, applications, antivirus programs, and ensured systems were up to date
- Helped configure routers, troubleshoot internet connectivity, manage LAN/Wi-Fi issues, and monitor network performance.
- Assisted in data entry, database updates, backups, and basic database queries.
- Assisted some teachers in managing their accounts in the student management system.
- Assisted in teaching computer studies classes

EDUCATION

Chuka University

Nairobi, Kenya

Bachelor of Science in Information Technology

Graduation Date: Nov 2025

PROJECT EXPERIENCE

PocketDuka

Remote

Developer

- Developed an e-commerce platform enabling clients to browse various products and place orders.
- Integrated payment processing systems with M-pesa, streamlining the checkout process and reducing transaction time by 20%.
- Developed a new automated system for admin approval of product listings, resulting in a 75% decrease in manual review time.
- Implemented continuous integration and continuous deployment processes for front-end on Vercel and back-end on Render, resulting in a 40% decrease in deployment time.
- Developed and deployed a user-friendly web application using Angular.

CloneX

Nairobi, Westlands

Developer

- Designed and developed a full-stack social media application inspired by X, using Node.js and Express to build scalable REST APIs and Angular for a responsive frontend, implementing authentication, content feeds, and user interactions.
